Herminoe Potions

- Using Timer library make a new timer object.
- Attach an interrupt on push button to start the routine.
- If the routine started turn on the red led.
- Set a timer every 2 minutes which flashes the green led by using timer.oscillate makes the led flashes for 5 second this event need to be repeated only 7 times as 15/2 = 7 so it will stop with the routine.
- Set a timer after 5 minutes to flash white led for 10 seconds.
- Set a timer after 8 minutes to flash white led for 10 second.
- Set a timer after 15 minutes to turn off the red led.
